Education

1994-1999 Ph.D. in Computer Science
University of Illinois at Urbana-Champaign

1989-1994 B.S. in Computer Engineering
Instituto Tecnológico Autónomo de México

Research Interests

Machine Learning, Data Mining, Genetic and Evolutionary Algorithms, Stochastic Optimization.

Experience

August 1999–present: Computer Scientist

Lawrence Livermore National Laboratory

My research centers on improving the accuracy and efficiency of machine learning algorithms and on applying them to scientific data from observations and simulations. I have developed improved algorithms for induction of single decision trees, ensembles of decision trees, neural network pruning, and feature selection and ranking. I have worked on practical applications of machine learning in diverse fields such as astronomy, plasma physics, remote sensing, and analysis of simulation data.

August 1994–July 1999: Graduate Fellow

University of Illinois at Urbana-Champaign.

My research focused on the design of reliable, efficient, and scalable parallel genetic algorithms. I derived accurate models of expected solution quality, and analyzed the effects of communication on search quality and algorithmic cost. I used these findings to optimize three types of parallel genetic algorithms to reach the desired solutions using minimum time. Adviser: David E. Goldberg. An extended version of my thesis was published by Kluwer Academic Publishers.

October 1998–July 1999: Graduate Research Assistant

Beckman Institute, University of Illinois at Urbana-Champaign.

Enhanced the effectiveness and efficiency of the genetic algorithm engine of a decision support tool that generates military maneuver plans.

August 1997–July 1999: Student Laboratory Director

Illinois Genetic Algorithms Laboratory, University of Illinois at Urbana-Champaign.

Oversaw the daily operations of the lab, both physically and on the Internet. Supervised four undergraduate assistants and a system administrator. Developed and executed hardware and software upgrade plans. Interacted with visitors and industrial contacts.

January 1997–May 1998: Graduate Teaching Assistant

Department of Computer Science, University of Illinois at Urbana-Champaign.

Taught Introduction to Computing with Applications to Business and Commerce. Conducted laboratory sessions and lectured occasionally. Acted as co-head TA for one year, coordinating the efforts of twelve graduate assistants and creating instructional material.

January 1994–July 1994: Lecturer

Instituto Tecnológico Autónomo de México, Mexico City.

Developed the syllabus and taught a parallel programming laboratory for Computer Engineering undergraduates. Also taught Introduction to Computer Science to non-engineering majors.

January 1994–May 1994: Lecturer

Universidad Anáhuac del Sur, Mexico City.

Taught a C programming class to engineering undergraduates.

Awards and Recognition

Fellow, International Society for Genetic and Evolutionary Computation, one of five initial Fellows elected in 2003.

Executive Board Member, International Society for Genetic and Evolutionary Computation, elected in 2004.

Nominated for best paper (5 nominees out of 158 submissions), Genetic Algorithms track, Genetic and Evolutionary Computation Conference, 2004.

Nominated for best paper (5 nominees out of 160 submissions), Genetic Algorithms track, Genetic and Evolutionary Computation Conference, 2003.

Best paper (tie), Real World Applications, Genetic and Evolutionary Computation Conference, 2002.

Fulbright Graduate Fellowship, U.S. Information Agency, 1994-1998.

Graduate Scholarship, Consejo Nacional de Ciencia y Tecnología, México, 1994-1998.

Honorable Mention, Instituto Tecnológico Autónomo de México, 1994.

Academic Achievement Recognition, Mexican Society of Mechanical and Electrical Engineers, 1994.

Professional Activities

Editorial Activities

Associate Editor, *Journal of Heuristics*.

Editorial Board Member, *Computational Optimization and Applications*.

Editorial Board Member, *Evolutionary Computation*.

Editorial Board Member, *Genetic Programming and Evolvable Machines*.

Editor (with F. Fernández), Special Issue on Parallel Bio-Inspired Algorithms, *Journal of Parallel and Distributed Computing*. To appear in late 2005.

Editor (with J. Foster), Special Issue of Best-of-GECCO papers, *Genetic Programming and Evolvable Machines*. To appear in early 2005.

Editorial Board Member, Evolutionary Computation Book Series, Instituto Politécnico Nacional, México.

Editor (with C. Coello), Special Issue on Genetic Algorithms, *Soluciones Avanzadas*, México, 2000.

Conference and Workshop Organization

Program Chair, Genetic Algorithms track, Genetic and Evolutionary Computation Conference, 2005.

Co-chair (with F. Fernández), Workshop on Parallel Bio-Inspired Algorithms, International Conference on Parallel Processing, 2005.

Editor-in-Chief, Genetic and Evolutionary Computation Conference, 2003.

General Chair, Genetic and Evolutionary Computation Conference, 2002.

Co-Program Chair (with D. Goldberg) for Genetic Algorithms and Classifier Systems track, Genetic and Evolutionary Computation Conference, 2000.

Co-chair (with W. Punch), Evolutionary Computation and Parallel Processing Workshop, 1999, 2000.

Electronic Publicity Chair, Genetic and Evolutionary Computation Conference, July, 1999.

Conference Program Committees

Congreso Español de Metaheurísticas, Algoritmos Evolutivos y Bioinspirados, 2003, 2004.
Encuentro Internacional de Ciencias de la Computación, 2003.
Evolution Artificielle, 2005.
Parallel Problem Solving from Nature, 2002, 2004.
Congress on Evolutionary Computation, 2002, 2003, 2004.
Frontiers in Evolutionary Algorithms, 2002, 2003.
ACM Symposium on Applied Computing, 2005
Primer Congreso Español de Algoritmos Evolutivos y Bioinspirados, 2002.
Genetic and Evolutionary Computation Conference, 1999–2005.
International Conference of the Chilean Computer Science Society, 2000.
International Conference on Machine Learning, 2001.
Workshop on Optimization by Building and Using Probabilistic Models, 2000, 2001.

Natural Sciences and Engineering Research Council of Canada
Swiss National Science Foundation
University Grants Committee, Hong Kong

Memberships

Member (Fellow in 2003), International Society of Genetic and Evolutionary Computation, 2000–present.

I was one of five architects of the forthcoming transformation of ISGEC into SIGEVO, an ACM Special Interest Group on Evolutionary Computation.

Member, ACM, 1994–present.

Member, IEEE and the IEEE Computer Society, 1999–present.

Member, INFORMS, 2005–present.

Chair of the Council of Authors, ISGEC elected in 2001, served until 2004.

Executive Board Member, ISGEC, elected in 2004.

Other

Co-instructor, Short Course on Genetic Algorithms, Caterpillar, February 9, 1999.

Co-instructor, Short Course on Genetic Algorithms, MW Soft, December 1–4, 1998.

Invited Talks

4 April 2005 “Parallel Genetic Algorithms: Theory and Practice,” Keynote at 8th International Workshop on Nature Inspired Distributed Computing (NIDISC05), Denver, CO.

25 October 2004 “Feature Subset Selection with Genetic Algorithms,” INFORMS Annual Meeting, Denver, CO.

7 November 2003 “Árboles, hormigas, y otras curiosidades,” Instituto Tecnológico Autónomo de México, Mexico City, México.

3 September 2003 “Algoritmos Evolutivos y Aprendizaje Automático,” Universidad de Extremadura, Mérida, Spain.

13 July 2003 “Parallel Genetic Algorithms,” Tutorial at GECCO 2003, Chicago, IL.

28 May 2003 “Aplicaciones de Algoritmos Genéticos a Aprendizaje Automático,” Keynote at Congreso Mexicano de Computación Evolutiva. Guanajuato, México.

7 August 2002 “Problem Solving with Evolutionary Algorithms,” Lecture at Internships in Terascale Simulation Technology Program, LLNL.

10 July 2002 “Introduction to Parallel Genetic Algorithms,” Tutorial at GECCO 2002, New York, NY.

8 February 2002 “Algoritmos Genéticos Paralelos,” Keynote at Primer Congreso Español de Algoritmos Evolutivos y Bioinspirados. Mérida, Spain.

8 August 2001 “Sapphire: Mining Scientific Datasets,” Joint Statistical Meetings, Atlanta, GA.

8 July 2001 “Introduction to Parallel Genetic Algorithms,” Tutorial at GECCO 2001, San Francisco, CA.

14 November 2000 “Computación Evolutiva,” Jornadas Chilenas de Computación. Santiago, Chile.

10 December 1999 “Introduction to Parallel Genetic Algorithms,” Genetic Algorithms Day, Department of Mathematics, City College of New York, NY.

14 July 1999 “Analysis, Design, and Implementation of Parallel Genetic and Evolutionary Algorithms,” Tutorial at GECCO 1999, Orlando, FL.

19 March 1999 “Recent Results in Parallel Genetic Algorithms,” Illinois Working Group in Genetic and Evolutionary Computation Seminar, Urbana, IL.

3 March 1999 “Parallel Genetic Algorithms,” Physics Division Colloquium, Argonne National Laboratory, Argonne, IL.

Patents and Records of Invention

- Kamath, C., Cantú-Paz, E. Parallel object-oriented data mining system. US Patent 6,675,164. Issued 01-06-2004
- Cantú-Paz, E., Kamath, C. Creating ensembles of oblique decision trees with evolutionary algorithms and sampling. Patent Application, LLNL Invention Case No. IL-10877. May 2002.
- Kamath, C., Cantú-Paz, E. Generating ensembles of decision trees by sampling data instances at each node of the tree. Patent Application, LLNL Invention Case No. IL-10878. May 2002.
- Kamath, C., Cantú-Paz, E., Littau, D. Using histograms to introduce randomization in the generation of ensembles of decision trees. Record of Invention, LLNL Invention Case No. IL-10905. July 2001.
- Kamath, C., Cantú-Paz, E. Parallel object-oriented decision tree system. Patent Application, LLNL Invention Case No. IL-10714. June 8, 2001.

External Funding

- Air Force Office of Scientific Research, \$8,445. "Student travel support for the 2002 Conference on Genetic and Evolutionary Computation." As chairman of the conference, I raised an additional \$15,000 from five private sponsors.
- Air Force Office of Scientific Research, \$15,000. "Student travel support for the 2003 Conference on Genetic and Evolutionary Computation."
